

3<sup>rd</sup> International  
doctoral seminar  
in field of Geodesy,  
Geoinformatics and  
Geo-space

Centre for Advanced  
Academic Studies  
University of Zagreb,  
Dubrovnik, Croatia  
May 14<sup>th</sup> – 17<sup>th</sup>, 2019

## FIRST ANNOUNCEMENT

Honourable colleagues, Ph.D. students, professors, mentors,

for third time University of Zagreb Faculty of Geodesy in cooperation with Technical University Munich Institute for Geodesy, Geomatics and Land Administration from Germany and Catholic University Leuven Institute for Public Governance from Belgium organize in Dubrovnik, at the Centre for Advanced Academic Studies (CAAS) of University of Zagreb the International Doctoral Seminar in the field of Geodesy, Geoinformatics and Geospace. The seminar will take place from May 14<sup>th</sup> – 17<sup>th</sup>, 2019.

University of  
Zagreb

Technische Universität München

**KU LEUVEN**

The goal of the Seminar is to create inspiring environment and provide support to PhD students in their work on their PhD-research, promoting exchange of experiences and results of PhD students' researches, international cooperation, student to student and student to professor networking, providing workshops on specific topics relevant for PhD study and informing about project opportunities.

## ORGANIZATION

Seminar organizers are University of Zagreb, Technical University Munich, and Catholic University Leuven. Preparation and execution of the Seminar will be done by the Faculty of Geodesy in Zagreb, Institute for Geodesy, Geomatics and Land Administration in Munich and Institute for Public Governance from Leuven with the support of Office for International Cooperation and Centre for Advanced Academic Studies of the University of Zagreb in Dubrovnik.

### **International Organization Committee:**

- Professor Željko Bačić, University of Zagreb (chair)
- Professor Walter Timo de Vries, Technical University Munich,
- Professor Joep Crompvoets, Catholic University Leuven,
- Prof. Thomas Wunderlich, Technical University Munich
- Assoc. Professor Almin Đapo, University of Zagreb,
- Bojan Vršnak, PhD, University of Zagreb,
- Assist. Professor Vesna Poslončec-Petrić, University of Zagreb
- Assist. Professor Rinaldo Paar, University of Zagreb and
- Mateja Dumbović, PhD, University of Zagreb

### **Seminar Programme**

The programme consists of sessions and workshops which comprehend several types of activities and topics:

- motivation lectures given by professors and mentors,
- Ph.D. students research presentations,
- research projects presentations,
- workshop about how to write and where to publish a scientific paper,
- workshop on student mobility and academic cooperation possibilities and
- workshop on project opportunities and relevance.

## **TECHNICAL DETAILS**

The event is taking place on May 14th – 17th 2019. The seminar will start on Tuesday 14th at 13.00 and finish on Friday 17th at 12.30 hours. Event location is Centre for Advanced Academic Studies of the University of Zagreb (CAAS) located in Dubrovnik, Don Frane Bulića 4 (the building at the header of Announcement), only 200 m away from the Pile entrance to the Old town. CAAS is specialized for the organization of schools, conferences, seminars and other academic events and is equipped with all necessary infrastructure for running our seminar. More info about CAAS can be found on its web page <http://www.caas.unizg.hr/>.

Accommodation and meals (half-pension including breakfast and lunch) are organized in Dormitory of CAAS-a under favourable price conditions. The Dormitory has a total of 70 beds in newly furnished single-, double-, triple- and four-bed rooms or apartments.

## **PARTICIPANTS**

We expect from the Seminar participants – Ph.D. students to present their research on the Seminar in the length of 20 - 30 minutes (dependable on the number of participants) and deliver up to two pages extended abstract about their research which will be published in Seminar proceedings.

From the teachers and mentors, we expect active participation in the Seminar, either by holding motivation lectures, present research projects, present cooperation possibilities or present new trends in organization and execution of Postgraduate doctoral studies.

## FEE AND REGISTRATION

It is our intention to organize a Seminar which will enable participation to all interested Ph.D. students, their mentors and teachers from Croatia, and other countries in our region, Europe and all the World. Faculty of Geodesy has, therefore, with support from the University of Zagreb taken care to ensure additional funds for Seminar organization so that costs of registration and stay in Dubrovnik could be acceptable for all, also having in mind that Dubrovnik is the most expensive tourist destination in Croatia. Since there are different accommodation possibilities (in single and double bedrooms, and triple bed apartments), as well as the length of stay, registration costs are split into two parts. Costs related to Seminar organization itself (fixed) and costs of accommodation which are tied to room type and length of stay (variable). Costs are set as follows:

- <b>Registration fee for participants</b>	.....	<b>140 €</b>
- <b>Registration fee for accompanying persons</b>	.....	<b>110 €</b>
- <b>Accommodation costs (person/day):</b>		
o single room	.....	<b>65 €</b>
o double room	.....	<b>60 €</b>
o triple bed room (2 rooms, shared bathroom) – single bed	.....	<b>55 €</b>
o triple/four bed room (2 rooms, shared bathroom) – double bed	.....	<b>50 €</b>

Registration fee includes seminar costs, coffee breaks, national dinner, excursion. Accommodation costs include room, breakfast and lunch (it does not include tourist tax 1 €/day)!

The registration should be made on-line in registration form provided on seminar web-page <http://science.geof.unizg.hr/ids2019/> .

Registration deadline for all participants is April 15th. Deadline for abstract submission for students is May 1st! Payments (registration and accommodation), confirmed by the organizer, the participant should pay on account listed in registration form till May 1st.

Available accommodation capacity for the seminar is (21 single, 13 double & 3 three/four bedrooms) In case that number of interested participants exceeds available capacity, the registration sequence and duly payment will determine the list of participants!

## ADDITIONAL INFORMATION

All the above mentioned, as well as additional information on 3rd International Doctoral Seminar in the field of Geodesy, Geoinformatics and Geospace are available at the seminar web page <http://science.geof.unizg.hr/ids2019/> .
