Welcome to Podgorica

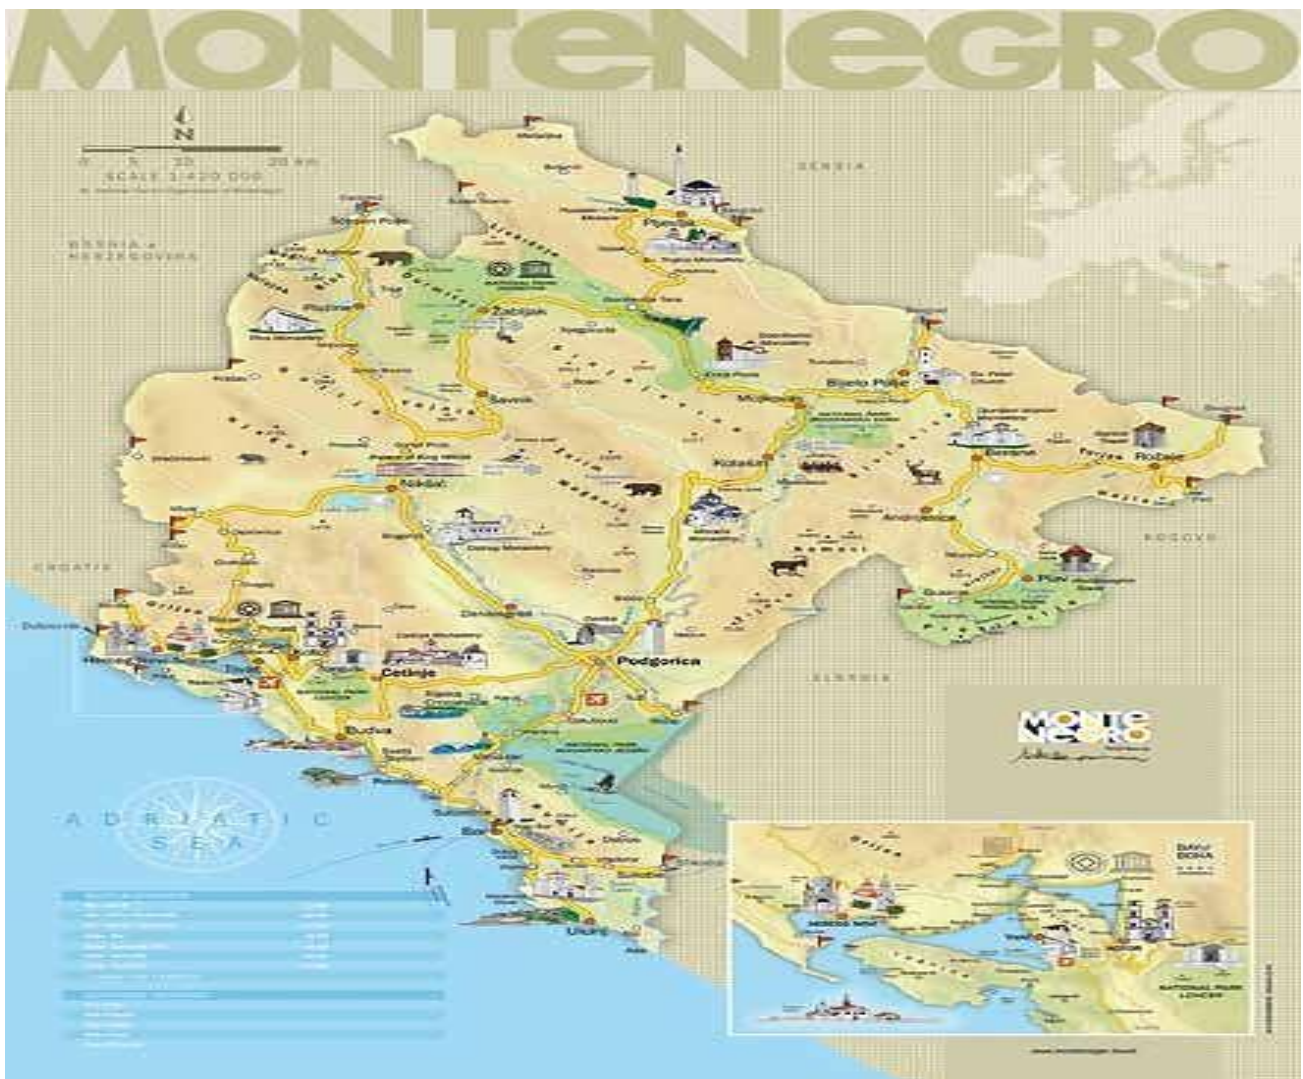

08 – 10.07.2019

MONTENEGRO

Montenegro stands on the edge between the east and the west. Different civilizations crashing and colliding have left the most beautiful marks between the wrinkled mountainous face of this fascinating country. Roman floor mosaics, Illyrian gray castles, Venetian stony walls, vibrantly painted Orthodox monasteries, ornamental Catholic churches, modest and minimalistic mosque minarets and plane socialist style buildings will tell you about Montenegrin rich cultural history. Myriad powers fought over these lands and that is why the locals are tall and strong, their eyes are of different shades of all colors, and their welcoming hug is warm and brotherly. Those looking for a multicultural European history are more than welcome to Montenegro.

MONTENEGRO: BY PLANE

*Tivat

85km/90 minute drive away from Podgorica. The following airlines operate to/from Tivat Airport: Air Serbia (Belgrade), Montenegro Airlines (Belgrade, Copenhagen, London-Gatwick, Moscow-Domodedovo, Paris-Charles de Gaulle, Pristina, Rome-Fiumicino, Skopje, St Petersburg).

*Podgorica

Podgorica has regular direct connections with London and other major European capitals: Frankfurt, Rome, Zurich, Paris, Moscow, Istanbul, etc. During the summer there are additional flights from London operated by RyanAir.

Although Tivat and Podgorica are Montenegro's main international airports, it is often easier for visitors to arrive via Dubrovnik Airport (in neighbouring Croatia), as it is served by a greater range of flights and airlines.

From airport the only way to get to the city is by taxi.

Official taxi on the airport is **ROYAL TAXI** (<http://www.royaltaxi.me/>), and the price of drive to the city is 12 €. We will notice the taxi company for your coming according to survey, so they will waited you with board of project logo.

You also can to order other city taxis with the Viber application:

Company 13. Jul – Plantaže

Ćemovsko polje – most of the wine production takes place in this basement. It's has brand new equipment and the latest global trends in production and technology are applied right here.

Šipčanik, a majestic wine cellar and former military airport, has been transformed into an impressive space for aging wine, located in the heart of the vineyard. The basement is positioned at an average depth of over 30 meters below ground. In the form of a spiral tunnel, 356 meters long, with an average width of 13.5 meters and height of 7 meters, it extends to over 7000 square meters. The temperature is almost constant and is between 17 and 19 degrees, while humidity is 80%. Šipčanik represents a real treasure for the Plantaže company and all our visitors, where at any given time, two million liters of wine are left to age.
